PROJECTS

Jargon - AI Powered Gamified Learning App | Full-Stack Developer | Sep. 2025 - Dec. 2025 

GitHub: <https://github.com/Jargon-IDSP>

Live App: <https://www.jargon-app.ca>

- Contributed to ~80% of the application, building core features including the Leaderboard, Friends system, User Profile, and major Home dashboard components in collaboration with cross-program designers.
- Developed complex UI and data flows using **React**, **TypeScript**, **Vite**, and **TanStack Query** for efficient server-state management.
- Built responsive, accessible interfaces using **Tailwind CSS**, **SASS/SCSS**, and **Radix UI** with a mobile-first approach.
- Designed, seeded, and queried the **MySQL** database using **Prisma ORM**; integrated **Clerk** authentication via **Ngrok** for automatic onboarding.
- Contributed to backend and application architecture using **Node.js** and **Hono**, working with modular structure and modern tooling.

MoneyMonsters - Family Budgeting Web App | Full-Stack Developer | May. 2025 - June 2025 

GitHub: <https://github.com/IDSP-Project/MoneyMonstersV2>

Live App: <https://moneymonstersv2.onrender.com>

- Built the Tasks and Goals system, enabling parent task assignment, child progress tracking, and goal linking, working closely with cross-program UI/UX designers.
- Implemented goal completion request workflows with pending, approved, and denied user feedback.
- Designed and updated **MongoDB** schemas and queries to support reward distribution, goal balances, and household data integrity.
- Developed full-stack features using **Node.js**, **Express**, **EJS**, and **SASS**, including session-based authentication, routing, and responsive modal workflows.

WORK EXPERIENCES

Warehouse Manager - Discount Carpet & Flooring | Richmond, BC | Oct 2022 - Aug 2024

- Independently managed daily warehouse operations, including inventory tracking, order preparation, and workflow coordination.
- Took full ownership of order accuracy, product handling, and timely customer deliveries.
- Operated forklift to safely load, unload, and organize flooring and carpet materials.
- Planned and prioritized tasks to meet daily operational and delivery deadlines.
- Solved logistical and operational problems efficiently in a fast-paced environment.
- Maintained a safe, organized workspace with strong attention to detail

Lifeguard - Kalahari Resorts & Conventions | Baraboo, WI, USA | Jun 2022 - Sep 2022

- Monitored indoor and outdoor water park areas to ensure guest safety
- Maintained constant focus and accountability in high-responsibility environments
- Responded quickly to emergencies and made accurate decisions under pressure
- Monitored multiple risk factors simultaneously and acted immediately to prevent incidents
- Communicated clearly with team members and guests to enforce safety rules
- Followed strict safety procedures and protocols consistently
