PROJECTS

Full-Stack Developer | Jargon - AI Powered Gamified Learning App | Sep. 2025 – Dec. 2025

GitHub: <https://github.com/Jargon-IDSP>

Live App: <https://www.jargon-app.ca>

- * Contributed to 80% of the application, building core features including the Leaderboard, Friend system, User Profile, and major Home dashboard components in collaboration with cross-program designers.
- * Developed complex UI and data flows using **React**, **TypeScript**, **Vite**, and **TanStack Query** for efficient server-state management.
- * Built responsive, accessible interfaces using **Tailwind CSS**, **SCSS/SASS**, and **Radix UI** with a mobile-first approach.
- * Designed, seeded, and queried the **MySQL** database using **Prisma ORM**; integrated **Clerk** authentication via **Ngrok** for automatic onboarding.
- * Contributed to backend and application architecture using **Node.js** and **Hono**, working with modular structure and modern tooling.

Full-Stack Developer | MoneyMonsters - Family Budgeting Web App | May. 2025 – Jun. 2025

GitHub: <https://github.com/Jargon-IDSP>

Live App: <https://www.jargon-app.ca>

- * Built the Tasks and Goals system, enabling parent task assignment, child progress tracking, and goal linking, working closely with cross-program UI/UX designers.
- * Implemented goal completion request workflows with pending, approved, and denied user feedback.
- * Designed and updated **MongoDB** schemas and queries to support reward distribution, goal balances, and household data integrity.
- * Developed full-stack features using **Node.js**, **Express**, **EJS**, and **SCSS/SASS**, including session-based authentication, routing, and responsive modal workflows.

WORK EXPERIENCE

Full-Stack Developer Intern - Strata Reserve Planning | Vancouver, BC (Remote) | Jan. 2026 – Present

- * Built a role-based web portal for strata reserve planning supporting 4 user types (Admin, Assistant, Inspector, Client).
- * Designed user flows and core UI for intake, documents, reviews, and scheduling.
- * Developed frontend using React and TypeScript with reusable components and role-based navigation.
- * Implemented scheduling features and workflow-based page access control.
- * Contributed to backend using Hono, Prisma, and PostgreSQL (Supabase), including document handling with Dropbox.

Warehouse Manager - Discount Carpet & Flooring | Richmond, BC | Oct. 2022 – Aug. 2024

- * Managed daily warehouse operations, including inventory, order preparation, and workflow coordination.
- * Ensured order accuracy, product handling, and timely deliveries.
- * Operated forklift and maintained a safe, organized workspace.
- * Solved logistical issues and prioritized tasks in a fast-paced environment.

Lifeguard - Kalahari Resorts & Conventions | Baraboo, WI, USA | Jun. 2022 – Sep. 2022

- * Monitored indoor and outdoor water park areas to ensure guest safety.
- * Responded quickly to emergencies and performed multiple water rescues (13 guests assisted).
- * Monitored multiple risk factors simultaneously and acted immediately to prevent incidents.
- * American Red Cross Lifeguard Certified.

EDUCATION

Diploma - Full-Stack Web Development

British Columbia Institute of Technology (BCIT)

Sep 2024 – April 2026

Computer Engineering

Istanbul Arel University

Sep 2020 – Jun 2022 (Incomplete)
